Link Intime India Private Limited, in case the shares are held in physical form.
17. Share transfer documents and all correspondence relating thereto, should be addressed to the Link Intime India Private Limited, at C 101, 247 Park, LBS Rd, Surya Nagar, Gandhi Nagar, Vikhroli West, Mumbai, Maharashtra - 400083 or at their designated email id i.e. rnt.helpdesk@linkintime.co.in.
18. The Company, consequent upon introduction of the Depository System ("DS"), entered into agreements with National Securities Depository Limited ("NSDL") and CDSL. The Members, therefore, have the option of holding and dealing in the shares of the Company in dematerialised form through NSDL or CDSL.
19. The DS envisages elimination of several problems involved in the scrip-based system such as bad deliveries, fraudulent transfers, mutilation of share certificates etc. Simultaneously, DS offers several advantages like exemption from stamp duty on transfer of shares, elimination of concept of market lot, elimination of bad deliveries, reduction in transaction costs, improved liquidity, etc.
20. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the company of any change in address or demise of any member as soon as possible. Members are also advised not to leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned DP and holdings should be verified.

21. SEBI has mandated the submission of PAN by every participant of the securities market. Members holding shares in dematerialized form are, therefore, requested to submit their PAN to their DPs with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the Company Link Intime India Private Limited.
22. As mandated by SEBI, effective April 01, 2019 except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed unless the securities are held in dematerialized mode with a depository. Accordingly, the Members of the Company were requested to open a demat account and submit physical securities to their DPs.
23. As per Regulation 40 of SEBI Listing Regulations, as amended, securities of listed companies can be transferred only in dematerialized form with effect from 1st April, 2019, except in case of request received for transmission or transposition of securities. In view of this and to eliminate all risk associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holdings to dematerialized form. Members can contact the Company or Company's Registrars and Transfer Agents - M/s. Link Intime India Private Limited for assistance in this regard.
24. Pursuant to Section 72 of the Act, Members are entitled to make a nomination in respect of shares held by them. Members desirous of making a nomination, pursuant to the Rule 19(1) of the Companies (Share Capital and Debentures) Rules, 2014 are requested to send their requests in Form No. SH-13, to Link Intime India Private Limited. Further, Members desirous of cancelling/varying nomination pursuant to the Rule 19(9) of the Companies (Share Capital and Debentures) Rules, 2014, are requested to send their requests in Form No. SH-14, to Link Intime India Private Limited. These forms will be made available on request, alternatively, member can also get in touch with Link Intime India Private Limited through their email id - rnt.helpdesk@linkintime.co.in.
25. Since the Meeting will be held through VC/ OAVM, the Route Map and Attendance Slip are not annexed to this Notice.
26. The facility for voting through E-voting on the Resolutions shall be made available during the course of AGM for those who have not voted previously.
27. All documents referred to in the accompanying Notice and the Explanatory Statement shall be open for inspection at the request of shareholders through E-mail at cs@spentasocks.com.

28. Update KYC Details:

In order to ensure that all communications and monetary benefits are received promptly by all Shareholders holding shares in physical form, the Company advises such shareholders to notify to the Company, any change in their address/ bank details/ email id etc. under the signatures of sole/ first named joint holder along with relevant supporting documents by using the KYC Forms.

SEBI vide its Circular dated 20th April, 2018 had also greatly emphasized on collection of the Bank Account details and the PAN details of the shareholders in order to enable Companies/RTA to raise standards and provide improved services to the Shareholders.

(Pursuant to the SEBI Circular dated November 03, 2021 and December 14, 2021, it is mandatory for every shareholder to update KYC i.e. Name, PAN, Email id, Address and Nomination.

29. Update E-mails for receiving notice/ documents in e-mode:

The shareholders who have not registered their email addresses are requested to kindly register their e-mail addresses so as to enable the Company to better service shareholder correspondence through e-mode.

In case of shares held in Physical mode: The shareholder may send a request quoting its Folio No. to RTA by email at rnt.helpdesk@linkintime.co.in

In case of shares held in Demat mode: The shareholder may please contact the Depository Participant ("DP") and register the email address and bank account details in the demat account as per the process followed and advised by the DP.

In line with the General Circular No. 20/2020 dated May 05, 2020 read with Circular No. 14/2020 dated April 08, 2020 and Circular No.17/2020 dated April 13, 2020 and Circular No. 02/2021 dated January 13, 2021 and Circular No. 21/2021 dated December 14, 2021 and Circular No. 2/2022 dated May 05, 2022. 10/2022 dated December 28, 2022 issued by the Ministry of Corporate Affairs, your Company is sending the Notice calling the AGM along with the Annual Report to the shareholders in electronic mode at their email addresses.

30. Encash Past Dividend Promptly:

The shareholders are advised to encash their dividend declared in prior years which remains not encashed promptly and revalidate the same before losing right to claim dividend owing to transfer of unclaimed dividends beyond seven years to the Investor Education and Protection Fund.

Annexure D**CRITERIA FOR DETERMINING QUALIFICATIONS, POSITIVE ATTRIBUTES AND INDEPENDENCE OF DIRECTORS****Definition of Independence**

- A director will be considered as an 'Independent Director' ('ID') if the person meets with the criteria for 'Independent Director' as laid down in the Companies Act, 2013 ('the Act') and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').
- The definition of Independent Director is as provided in the Act and Listing Regulations.
- Current and ex-employees of the Company may be considered as independent only if he/she has or had no pecuniary relationship with the company during the two immediately preceding financial years or during the current financial year.

Qualifications of Directors

- Boards will ensure that a transparent board nomination process is in place that encourages diversity of thought, experience, knowledge, perspective, age and gender.
- It is expected that boards have an appropriate blend of functional and industry expertise.
- While recommending appointment of a director, it is expected that the Nomination and Remuneration Committee ('NRC') to consider the manner in which the function and domain expertise of the individual contributes to the overall skill-domain mix of the Board.
- IDs ideally should be thought/practice leaders in their respective functions/domains.

Positive attributes of Directors

Directors are expected to comply with duties as provided in the Act. For reference, the duties of the Directors as provided by the Act are as follows:

1. Act in accordance with the articles of the company.
2. Act in good faith in order to promote the objects of the company for the benefit of its members as a whole and in the best interests of the company, its employees, the shareholders, the community and for the protection of environment.
3. Exercise duties with due and reasonable care, skill and diligence and exercise independent judgement.
4. Not be involved in a situation in which he may have a direct or indirect interest that conflicts, or possibly may conflict, with the interest of the company
5. Not achieve or attempt to achieve any undue gain or advantage either to himself or to his relatives, partners, or associates.
6. Not assign his office.

Additionally, the Directors on the Board of the Company are also expected to demonstrate high standards of ethical behaviour, strong interpersonal and communication skills and soundness of judgement. IDs are also expected to abide by the 'Code for Independent Directors' as outlined in Schedule IV to Section 149(8) of the Act and adopted by the Board. The Code specifies the guidelines of professional conduct, role and function and duties of Independent Directors. The guidelines of professional conduct specified in the Code are as follows:

An Independent Director shall:

1. uphold ethical standards of integrity and probity;
2. act objectively and constructively while exercising his duties;
3. exercise his responsibilities in a bona fide manner in the interest of the company;
4. devote sufficient time and attention to his professional obligations for informed and balanced decision making;
5. not allow any extraneous considerations that will vitiate his exercise of objective independent judgment in the paramount interest of the company as a whole, while concurring in or dissenting from the collective judgment of the Board in its decision making;
6. not abuse his position to the detriment of the company or its shareholders or for the purpose of gaining direct or indirect personal advantage or advantage for any associated person;
7. refrain from any action that would lead to loss of his independence;
8. where circumstances arise which make an independent director lose his independence, the independent director must immediately inform the Board accordingly;
9. assist the company in implementing the best corporate governance practices.

Annexure G**MANAGEMENT DISCUSSION AND ANALYSIS REPORT****GLOBAL ECONOMY OVERVIEW**

Global economic activity is experiencing a broad-based and sharper-than-expected slowdown, with inflation higher than seen in several decades. The cost-of-living crisis, tightening financial conditions in most regions, Russia's invasion of Ukraine and its effects, climate change and the lingering COVID-19 pandemic all weigh heavily on the outlook. IMF forecasts global growth to slow from 3.4 percent in 2022 to 2.8 percent in 2023 before settling at 3.0 percent in 2024. Advanced economies are expected to see an especially pronounced growth slowdown, from 2.7 percent in 2022 to 1.3 percent in 2023*. However, with the recent relaxations of COVID-19 restrictions in China and the unleashing of the pent-up demand, there is an expectation of faster-than-expected recovery in the global economy in a gradual manner.

INDIAN ECONOMIC OVERVIEW

India's growth continues to be resilient despite some signs of moderation in growth, says the World Bank in its latest India Development Update, the World Bank India's biannual flagship publication.

The overall growth remains robust and is estimated to be 6.9 percent for the full year with real GDP growing 7.7 percent year-on-year during the first three quarters of fiscal year 2022/23. There were some signs of moderation in the second half of FY 22/23. Growth was underpinned by strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. Inflation remained high, averaging around 6.7 percent in FY22/23 but the current-account deficit narrowed in Q3 on the back of strong growth in service exports and easing global commodity prices.

The World Bank has revised its FY23/24 GDP forecast to 6.3 percent from 6.6 percent (December 2022). Growth is expected to be constrained by slower consumption growth and challenging external conditions. Rising borrowing costs and slower income growth will weigh on private consumption growth, and government consumption is projected to grow at a slower pace due to the withdrawal of pandemic-related fiscal support measures.

Indian Textile Industry

The Textile Sector in India ranks next to Agriculture. Textile is one of India's oldest industries and has a formidable presence in the national economy in as much as it contributes to about 14 per cent of manufacturing value-addition, accounts for around one-third of our gross export earnings and provides gainful employment to millions of people. The textile industry occupies a unique place in our country. One of the earliest to come into existence in India, it accounts for 14% of the total Industrial production, contributes to nearly 30% of the total exports and is the second largest employment generator after agriculture.

India's textile industry is one of the economy's largest. In 2000/01, the textile and garment industries accounted for about 4 percent of GDP, 14 percent of industrial output, 18 percent of industrial employment, and 27 percent of export earnings (Hashim). India's textile industry is also significant in a global context, ranking second to China in the production of both cotton yarn and fabric and fifth in the production of synthetic fibers and yarns.

In contrast to other major textile-producing countries, mostly small-scale, nonintegrated spinning, weaving, cloth finishing, and apparel enterprises, many of which use outdated technology, characterize India's textile sector. Some, mostly larger, firms operate in the "organized" sector where firms must comply with numerous government labor and tax regulations. Most firms, however, operate in the small-scale "unorganized" sector where regulations are less stringent and more easily evaded.

The unique structure of the Indian textile industry is due to the legacy of tax, labor, and other regulatory policies that have favored small-scale, labor-intensive enterprises, while discriminating against larger scale, more capital-intensive operations. The structure is also due to the historical orientation towards meeting the needs of India's predominately low-income domestic consumers, rather than the world market. Policy reforms, which began in the 1980s and continued into the 1990s, have led to significant gains in technical efficiency and international competitiveness, particularly in the spinning sector. However, broad scope remains for additional reforms that could enhance the efficiency and competitiveness of India's weaving, fabric finishing, and apparel sectors

INDUSTRY STRUCTURE AND DEVELOPMENT:

The global textile industry has been facing exceptionally challenging conditions since the past two years due to the restrictions imposed because of the Covid-19 pandemic. Further, the global supply chain had seen unprecedented levels of pressure and disruption due to logistical impasse. This led to delayed delivery resulting into reduced product shelf life and increased inventory at importer / retailer level which resulted in reduction in export orders / delayed picking of confirmed orders, apart from sharp increase in vessel shipping cost. Further, prodigious liquidity globally led to a proliferation in commodity prices including Cotton, Dyes, Chemicals, Coal, etc.

The socks industry being majorly an unorganized and fragmented sector the entire industry size and figures cannot be estimated. The socks and accessories market in India has grown tremendously over the decade. Indian socks industry is maturing and with urban population evolving, demand for casuals, sports and fashion socks is picking up. Millennials are very brand conscious and demand for branded wear is on the rise. There is growth in the industry in tier I and II markets and brand awareness is growing significantly.

OPPORTUNITIES AND THREATS:

Accelerated reopening of activities have re-opened opportunities for the textile market which were quiet for a long time. Further, China plus one policy by USA and Europe will lead to increase in demand for the Indian Market. With an added advantage of high quality standards and globally renowned accreditations, our Company will be forging ahead with its sustainability vision to build potential so as to grab opportunities coming its way.

The demand for socks in India and other countries is on the rise. The flow of orders has been progressively increasing for last few years. Your Company is well poised to seize opportunities available in the sock knitting industry on account of its state-of-the-art production facilities, technical expertise, good quality culture and emphasis on product innovation and growth potential.

Market is shifting towards Branded Garment. Your Company has been ahead in making investment in plant and machinery to meet the growth and meet the huge demand creation in the market. Your company is working with international brands. We are constantly experimenting products made from innovative yarns and eco-friendly chemicals for manufacturing most comfortable socks especially for sports. These technically innovative socks are much in demand by international brands. Given the unrelenting spread of the second wave of pandemic and the large-scale impact on the lives of the people, the near-term outlook for the Indian economy is uncertain impacting the growth prospects, the threat of slow demand for few quarters is possible. Your company therefore is increasing the customer base and also shortly planning to venture into ecommerce selling to overcome this.

SEGMENT-WISE OR PRODUCT WISE PERFORMANCE:

The Company has one segment activity namely socks, in line with the definition of "segment" as per Accounting Standard 17 issued by the Institute of Chartered Accountants of India. The performance of the Company is discussed separately in the Directors' Report.

OUTLOOK:

Coming year will be challenging with respect to pricing. Due to constant investment in latest machinery your company is able to target a vast audience, enhancing product quality, improving delivery schedules and giving superior customer service. Expectations are high, prospects are bright, but capitalizing on the new emerging opportunities will be a challenge for the socks manufacturing Companies.

The Company's Socks Division is optimistic of growth through continued network expansion and innovation. The Business will continue to focus on increasing the premium and fashion quotient of its offerings on the basis of a deep understanding of consumer preferences and delivering products of world-class quality.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The Company maintains adequate and effective Internal Control Systems commensurate with its size and complexity. It believes that these systems provide, among other things, a reasonable assurance that transactions are executed with management authorization. It also ensures that they are recorded in all material respect to permit preparation of financial statements in conformity with established accounting principles along with the assets of the Company being adequately safeguarded against significant loss or

misuse. An independent Internal Audit function is an important element of Company's Internal Control System. This is supplemented through an extensive internal audit program and periodic review by the management and the Audit Committee of Board.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

During the year under review, the total production of the socks was steady but margin were effected due to increase in input costs. The Profit before tax recorded during the year was Rs. 127.49 Lakhs as against Profit of Rs. 265.48 Lakhs in the previous financial year.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED:

At Spenta, we are committed to sustainable work practices and a transparent work culture. The year gone by brought many challenges owing to Covid led disruptions which posed serious threats to the entire mankind. Amidst all these thought-provoking scenarios, we leveraged use of digital assets to connect with various stakeholders, including our employees. IT tools were optimally utilised for skills enhancement and training of employees when most of the business activities were standstill everywhere.

Maintaining balance between safety of employees and business continuity, Work From Home (WFH) facility was accorded to people immediately post lockdown. As the things started to ease, proactive measures for employees were undertaken like, workplace SOPs, awareness sessions, etc. Similarly, our factories resumed operations with robust hygiene norms and considering all the social-distancing regulations.

As always, people development continues to be an extremely important area in your Company. Anchoring developmental conversations at every level and ensuring that all managers are skilled in holding developmental conversations has been an area of focus. The industrial relations remained cordial throughout the year. The employees of the Company have extended a very productive co-operation in the efforts of the management to carry the Company to greater heights.

The Company had on rolls total of 75 permanent employees as on 31st March, 2023 excluding employees on contract basis and job workers.

CAUTIONARY STATEMENT:

Statements in this report on Management Discussion and Analysis, describing the Company's objectives, projections, estimates, expectations, or predictions may be forward looking, considering the applicable laws and regulations. These statements are based on certain assumptions and expectation of future events. Actual results could, however, differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include finished goods prices, raw materials costs and availability, global and domestic demand supply conditions, fluctuations in exchange rates, changes in Government regulations and tax structure, economic developments within India and the countries with which the Company has business contacts. The Company assumes no responsibility in respect of the forward-looking statements herein, which may undergo changes in future based on subsequent developments, information, or events.

RISK's AND CONCERNS:

The major challenge that the textile, apparel and hosiery industry faces is of ever-increasing production costs arising out of rising wages, power and other overheads.

Inflation is expected to remain elevated for the foreseeable future, driven by war-induced commodity price increases and broadening price pressures. In addition, the anticipated increase in interest rates by Central Banks in the coming year are also expected to lower growth and exert pressure on economies particularly those in emerging markets.

In these circumstances, the ability to successfully navigate cost pressures would have a significant bearing on the overall performance of your Company. Diminishing purchasing power and demand due to the economic circumstances could result in fundamental shifts in consumer behaviours and adversely impact the market for textiles and apparel.

Deterioration in supply chain and demand due to pandemic such as COVID-19 have emerged as a significant business risk. Strong supply chain system with robust digitization and interlinking of various divisions is the need of the hour to tackle similar situations in future.

INDEPENDENT AUDITOR'S REPORT**TO THE MEMBERS OF
SPENTA INTERNATIONAL LIMITED****Report on the Standalone Financial Statements**

We have audited the accompanying financial statements of **Spenta International Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2023 and the Statement of Profit and Loss (Including other Comprehensive Income), Statement of change in Equity and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its loss, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Financial Statements

Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, 29 including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements. We remain solely responsible for our audit opinion

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ('the Order'), issued by the Central Government of India in terms of sub-section 11 of Section 143 of the Company Act, 2013, and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure, a statement on the matters specified in the said Order.

ANNEXURE "2" TO THE INDEPENDENT AUDITOR'S REPORT

referred to in paragraph 1(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Spenta International Limited ("the Company")** as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statement and such internal financial controls with reference to financial statement were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility**Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.**

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statement and their operating effectiveness. Our audit of internal financial controls with reference to financial statement included obtaining an understanding of internal financial controls with reference to financial statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statement.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that;

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statement to future periods are subject to the risk that the internal financial control with reference to financial statement may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Company Overview

Spenta International Limited (The Company) is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The company is engaged in manufacturing and trading of socks.

1 Significant Accounting Policies**a) Basis for preparation of financial Statements**

These financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India.

b) Basis of measurement

The Company maintains accounts on accrual basis following the historical cost convention, except for followings:

- Certain Financial Assets and Liabilities is measured at Fair value/ Amortized cost (refer accounting policy regarding financial instruments);
- Defined Benefit Plans – Plan assets measured at fair value.

c) Functional and Presentation Currency

The Financial Statements are presented in Indian Rupee (INR), which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

d) Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

e) Presentation of Financial Statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Indian Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended).

f) Operating Cycle for current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1. The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

g) Measurement of Fair Values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when

pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable and
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

h) New Standards / Amendments to Existing Standard issued and effective upto the date of issuance of the Company's Financial Statement are disclosed below:

On 28th March, 2018, the Ministry of Corporate Affairs (MCA) has notified Ind AS 115 - Revenue from Contracts with Customers and certain amendment to existing Ind AS. These amendments have been applicable to the Company from 1st April 2018.

➤ **Ind AS 115-Revenue from Contracts with Customers**

Ind AS 115 supersedes Ind AS 11, Construction Contracts and Ind AS 18, Revenue. Ind AS 115 requires an entity to report information regarding nature, amount, timing and uncertainty of revenue and cash flows arising from contract with customers. The principle of Ind AS 115 is that an entity should recognize revenue that demonstrates the transfer of promised goods and services to the customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.

Based on preliminary assessment performed by the Company, the impact of the application of the standard is not expected to be material.

➤ **Amendment to Existing issued Ind AS**

Ind AS 12 - Income Taxes

Ind AS 21 - The Effects of Changes in Foreign Exchange Rates

Ind AS 28 - Investment in Associates and Joint Ventures

Ind AS 112 - Disclosure of Interests in Other Entities

The impact of the above standards on the financial statements, as assessed by the Company, is not expected to be material.

i) Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is measured by including, unless specifically mentioned below, cost of purchase and other costs incurred in bringing the inventories to their present location and condition. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. Cost is ascertained on First in First out basis for all inventories except for by products and scrap materials which are valued at net realizable value.

j) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents includes cash on hand, term deposits and other short-term highly liquid investment.

k) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognized in the statement of profit & loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

l) Current Tax

Current tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities using the tax rates (and tax laws) that have been enacted or substantively enacted, at the end of the reporting period.

m) Deferred Tax

- Deferred Tax assets and liabilities is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.
- Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes (i.e., tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.
- Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.
- The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Company reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

n) Property, plant and equipment (including Capital work-in-progress)

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent cost are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to profit or loss during the reporting period in which they are incurred.

Assets acquired but not ready for use are classified under Capital work in progress and are stated at cost comprising direct cost and related incidental expenses.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 01 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

o) Depreciation and Amortization

- Depreciation on Property, Plant & Equipment is provided on Straight Line Method in terms of life span of assets prescribed in Schedule II of the Companies Act, 2013 or as reassessed by the Company based on the technical evaluation.
- In case the cost of part of tangible asset is significant to the total cost of the assets and useful life of that part is different from the remaining useful life of the asset, depreciation has been provided on straight line method based on internal assessment and independent technical evaluation carried out by external valuers, which the management believes that the useful lives of the component best represent the period over which it expects to use those components
- Depreciation on Fixed Assets has been provided on Straight - Line Method (SLM) in accordance with the rates prescribed under Schedule II of the Companies Act, 2013 over the life of the assets.

p) Revenue recognition

Revenue is recognized based to the extent it is probable that the economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment, and excludes taxes & duties collected on behalf of the Government and is reduced for estimated customer returns, rebates and other similar allowances.

q) Sale of Product

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and significant risk and reward incidental to sale of products is transferred to the buyer, usually on delivery of the goods.

r) Revenue from rendering of services

Revenue from rendering of services is recognized on pro-rata basis over the period of contract and when the performance of agreed contractual task has been completed.

s) Other Income

➤ **Interest Income:** For all debt instruments measured either at amortized cost or at fair value through other comprehensive income (FVTOCI), interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

➤ **Dividend Income:** Dividend income is accounted in the period in which the right to receive the same is established.

➤ **Other Income:** Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

t) Employee Benefits

➤ **Short Term Benefits:** Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

➤ **Other Long Term Employee Benefits:** The liabilities for earned/privilege leave that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements as the result of experience adjustment and changes in actuarial assumptions are recognized in statement of profit and loss.

➤ **Post-Employment Benefits:** The Company operates the following post-employment schemes

Defined Contribution Plan: Defined contribution plans such as Provident Fund, Employee State Insurance etc. are charged to the statement of profit and loss as and when incurred and paid to Authority.

Defined Benefit Plans: The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method. The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is

calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation.

Remeasurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Remeasurements recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss.

u) Foreign Currency Transactions:

- Foreign currency (other than the functional currency) transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.
- Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.
- Non-monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

v) Borrowing Costs:

- Borrowing Costs consists of interest and other costs that an entity incurs in connection with the borrowings of funds. Borrowing costs also includes foreign exchange difference to the extent regarded as an adjustment to the borrowing costs.
- Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale.
- Transaction costs in respect of long term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

w) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

➤ **Financial Assets :**

1. **Recognition and Initial Measurement:**

All financial assets are initially recognized when the company becomes a party to the contractual provisions of the instruments. A financial asset is initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

2. **Classification and Subsequent Measurement:**

For purposes of subsequent measurement, financial assets are classified in four categories:

- Measured at Amortized Cost
- Measured at Fair Value Through Other Comprehensive Income (FVTOCI)
- Measured at Fair Value Through Profit or Loss (FVTPL); and
- Equity Instruments designated at Fair Value through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets

- Measured at Amortized Cost: A debt instrument is measured at the amortized cost if both the following conditions are met
 - The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
 - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade receivables, cash and bank balances, loans and other financial assets of the company

- Measured at FVTP : FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss. Equity instruments which are, held for trading are classified as at FVTPL.

3. **Derecognition:**

The Company derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity

4. **Impairment of Financial Assets:**

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS – 109 requires expected credit losses to be measured through a loss allowance. The company recognizes impairment loss for trade receivables that do not constitute a financing transaction using expected credit loss model, which involves use of a provision matrix constructed on the basis of historical credit loss experience. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

➤ **Financial Liabilities:**

1. **Recognition and Initial Measurement:**

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2. **Subsequent Measurement:**

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective

interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

3. Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

x) **Earnings Per Share:**

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders adjusted for the effects of potential equity shares by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

y) **Impairment of Non-Financial Assets:**

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

z) **Provisions, Contingent Liabilities and Contingent Assets**

➤ **Provisions**

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

➤ **Contingent Liabilities**

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in Other Notes to Financial Statements.

- **Contingent Assets:** Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

aa) **Intangible Assets:**

➤ **Recognition and Measurement**

Intangible asset are stated at cost on initial recognition and subsequently measured at cost less accumulated amortization and accumulated impairment loss, if any.

➤ **Amortization**

1. Software's are amortized over a period of three years.
2. The amortization period and the amortization method are reviewed at least at the end of each financial year. If the expected useful life of the assets is

significantly different from previous estimates, the amortization period is changed accordingly.

bb) **Operating Segment**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker of the Company is responsible for allocating resources and assessing performance of the operating segments and accordingly is identified as the chief operating decision maker.

The Company has identified one reportable segment "Knitted Socks" based on the information reviewed by the CODM.

cc) **Significant Judgments and Key Sources of Estimation in Applying Accounting Policies**

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Information about Significant judgements and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

- **Recognition of Deferred Tax Assets:** The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.
- **Classification of Leases:** The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.
- **Defined Benefit Obligation (DBO):**

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.
- **Provisions and Contingencies:**

The assessments undertaken in recognising provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.
- **Impairment of Financial Assets:**

The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.
- **Allowances for Doubtful Debts:**

The Company makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.
- **Fair value measurement of financial Instruments:**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models are taken from observable markets where possible, but where this not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Valuation Process

The best evidence of fair value is current price in an active market for similar properties. Where such information is not available, Company considers current price in an active market for properties of different nature or recent prices of similar properties in less active market, adjusted to reflect those differences. We have considered rates available from property market websites to arrive at fair value. They are classified as level 1 fair values in the fair value hierarchy.

Note 50.1 : The management assessed that the fair values of cash and cash equivalents, trade receivables, trade payables, current borrowings, current loans and other financial assets & liabilities approximates their carrying amounts largely due to the short-term maturities of these instruments.

Note 50.2 : The management considers that the carrying amounts of Financial assets and Financial liabilities recognised at nominal cost/amortised cost in the Financial statements approximate their fair values.

Note 50.3 : Non current borrowings has been contracted at floating rates of interest, which are reset at short intervals. Fair value of floating interest rate borrowings approximates their carrying value subject to adjustments made for transaction cost.

Note 51 : Fair Value Hierarchy

The following are the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair value are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels of fair value measurement as prescribed under the Ind AS 113 "Fair Value Measurement". An explanation of each level follows underneath the tables.

Total financial assets	5675417	-	46068	5721485	6408369	-	48034	6456403

Note 51.1: During the year ended March 31, 2023 and March 31, 2022, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfer into and out of Level 3 fair value measurements.

Note 51.2: Explanation to the Fair Value hierarchy

The Company measures Financial instruments, such as, quoted investments and interest free security deposit at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The valuation of quoted shares have been made based on level 1 inputs as per the hierarchy mentioned in the Accounting Policies. The valuation of quoted equity instruments have been valued based on the closing price at each reporting date from BSE. The valuation of interest free security deposit have been made based on level 3 inputs as per the hierarchy mentioned in the Accounting Policies. The valuation of interest free security deposit have been valued based on valuation technique applicable.

Note 52: Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also holds investments. Various kinds of financial risks and their mitigation plans are as follows:

Note 52.1: Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of Foreign Exchange Risk and Interest Rate Risk.

Note 52.1.1: Foreign Exchange Risk

Foreign Exchange Risk is the exposure of the Company to the potential impact of the movement in foreign exchange rate. The Company does not have any material foreign currency exposure at the balance sheet date. The Foreign currency exposure is Unhedged at the balance sheet date.

Note 52.1.2: Foreign Exchange Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market rates. The company's exposure to the risk of changes in market interest rate relates primarily to company's borrowing with floating interest rates. The Company do not have any significant interest rate risk on its current borrowing due to their short tenure.

The Company is also exposed to interest rate risk on surplus funds parked in loans. To manage such risks, such loans are granted for short durations with fixed interest rate in line with the expected business requirements for such funds.

Except for these financial liabilities, it is not expected that cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts. When the amount payable is not fixed, the amount disclosed has been determined with reference to conditions existing at the reporting date.

Note 52.3: Credit Risk

The credit risk is the risk of financial loss arising from counter party failing to discharge an obligation. The credit risk is controlled by analysing credit limits and credit duration for customers on continuous basis. Further, in order to manage the credit risk, the security deposits are obtained from customers where ever considered necessary.

On account of adoption of Ind AS 109, the Company uses an expected credit loss model to assess the impairment loss. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables.
